SWEET POTATO

POWER2GRO™ Crop Production System

An integrated, system-based approach to maximize yield of marketable crop by improving nutrient density and sizing consistency.

Program Key Benefits

- Increase #1's while building nutrient density, increase skin durability, and nitrogen efficiency.
- Ideal ratios of Macro and Micronutrients for improved sizing consistency, root mass, and nutrient uptake.
- Proprietary blend of fermentation extracts, amino acids, plant extracts and surfactants designed to enhance vegetative growth and reproductive potential.
